#34719040 Silver 6mm Open/Closed Jump Rings (1 pk)
#34734264 Fun Pack Thin Hemp Cord (1 pk)

Tools needed:

Needle Nose Pliers
Round Nose Pliers
Wire Cutters
Scissors

Techniques to Know:

Jump Rings
Form a Loop
Basic Knot
Basic Wire Wrap

DIRECTIONS:

1. Cut a 12" length of wire. Shape the wire into a circle approximately 3" in diameter. (It is helpful to find something round in shape, approximately 3" in diameter, to shape your wire around.)
2. Slide on the following beads, red, green, red, green, etc. until you have a total of 11 red beads and 10 green beads. Wrap each end of wire around the other end of wire to secure the shape of your circle.
3. Slide the following beads onto an eye pin: green acrylic bead, red glass round, and a green acrylic bead. Form a loop to make a bead link.
4. Cut a 5" length of wire. Spiral each end of wire, in opposite directions, to make an ornament hanger. (It is helpful to find something like a glue stick to form the wire around.) Connect the ornament hanger to a loop on one side of the bead link from the previous step. Set aside.

5. Slide the following Crystazzi beads onto a head pin: clear seed bead, red triangle bead, clear seed bead, clear drum bead, clear seed bead, red triangle bead. Repeat this step one more time and form a loop to make a beaded drop.
6. Slide one green acrylic bead onto an eye pin and form a loop to make a bead link. Connect the loop on one end of the bead link to the loop on the beaded drop.
7. Open a 6mm open jump ring. Slide the other loop of the bead link from steps 3 & 4, and the other loop of the bead link from step 6 onto the jump ring. Close the jump ring around the wreath where you wrapped the wire ends around each other in step 2, so the Crystazzi bead drop and attached green bead link hang down inside the middle of the wreath and the bead link and spiral hanger are above the wreath.

Bonus: Garland Instructions:

1. Slide the following beads onto a head pin: green, red, and green. Form a loop. Repeat this step to make thirteen bead links.
2. Cut fourteen 6" lengths of hemp cord.
3. Knot a cord end through the loop on one side of a bead link. Knot another cord end around the loop on the other end of the bead link. Knot the other end of that cord around a loop on another bead link.
4. Keep knotting cord ends onto the loops on the bead links until you have connected all the bead links with cord and there is a cord on each end of the garland. Leave a little tail after each knot to look like "branches" connecting your garland.
