

Gasparilla Necklace

Supplies Needed:

- #37600066 Mini DIY Skull Bracelet Kit (1 pk)
- #34718001 Matte Gold Chain (1 pk)
- #34708503 Matte Gold Spike Charms Pack (1 pk)
- #34733001 Wood Bead Mix (1 pk)
- #34712003 Antique Gold Findings Pack (1 pk)

Tools Needed:

- Needle Nose Pliers
- Round Nose Pliers
- Wire Cutters
- Scissors

Techniques to Know:

- Form a Loop
- Jump Rings
- Cutting Chain

DIRECTIONS:

1. Slide the following onto an eye pin: a gold spike, small black bead, gold spike, small black bead, gold spike, multi colored wood bead, gold spike, small black bead, gold spike, small black bead, and a gold spike. Form a loop to make a beaded spike link.
2. Cut two 1 1/2" lengths of chain. Use 4mm jump rings to connect one end of a length of chain to each end of the beaded link.
3. Cut the head off a head pin. Form a loop to make an eye pin with a loop large enough to hold a multi colored wood bead on the eye pin. Slide a multi colored wood bead, a small black bead, and a multi colored wood bead onto the eye pin. Form a loop to make a beaded link. Repeat this step again to make a total of two beaded links.

4. Connect a loop on one end of each beaded link to the end links on each 1 1/2" length of chain.
5. Cut two 11" lengths of chain. Connect the loop on the other end of each beaded link to one end of each 11" length of chain. This is the longer chain strand of the necklace. Set aside.
6. Slide a gold cube bead and the gold skull bead onto an eye pin. Slide several 4mm jump rings onto the eye pin so they go into the skull bead and stabilize the skull bead on the eye pin. Continue by sliding a small black bead, a gold cube bead, a multi colored wood bead, a gold cube bead, and a small black bead onto the eye pin. Form a loop to make a beaded skull link.
7. Slide the following onto an eye pin: a small black bead, gold cube bead, multi colored wood bead, gold cube bead, and a small black bead. Form a loop to make a beaded link.
8. Connect the loop on the skull side of the beaded skull link to one side of the beaded link from the previous step.
9. Cut two 3/4" and one 1" lengths of chain. With the longer length of chain in the middle, use a 4mm jump ring to connect one end of the three chains to the bottom loop of the beaded link from the previous step.
10. Cut a 19" length of chain. Use a 6mm jump ring to attach the loop on the top of the beaded skull link to the middle of the chain. This is the shorter chain strand of the necklace.
11. Lay the shorter chain strand above the longer chain strand (from step 5).
12. Use a 6mm jump ring to connect the end links of chain on one side of the necklace together.
13. Use a 4mm jump ring to connect a lobster clasp to the end links of chain on the other side of the necklace.
