## Techniques to Know:

Form a Loop  
Jump Rings  
Cutting Chain

## DIRECTIONS:

1. Find and cut tiny image to fit into the bottle.
2. Remove cork from top of bottle and slide the image into the bottle. Fill bottle with red e-beads. Put cork securely back onto the bottle.
3. Slide a red e-bead onto an eye pin and form a loop to make a bead link. Attach the loop on one end of the bead link to the loop on top of the cork bottle and the loop on the other end of the bead link to the bottom of the circle on the chain.
4. Slide a clear e-bead onto a 6mm jump ring. Repeat this step two more times.

5. Slide a red e-bead onto a 6mm jump ring. Repeat this step three more times.
6. Slide one end of a single clear e-bead jump ring from step 4 through both jump rings that connect the chains to the circle on the necklace. Close the jump ring so the clear e-bead hangs down into the circle.
7. Attach a red e-bead jump ring, a clear e-bead jump ring, and a red e-bead jump ring to the necklace circle, on each side of the bottle.
8. Cut the middle of the necklace chain.
9. Use a 4mm jump ring to connect a lobster clasp to one chain end.
10. Cut a 3" length of extender chain. Use a 4mm jump ring to connect one end of the extender chain to the other chain end. Attach the lobster clasp to that 4mm jump ring.
11. Slide three red e-beads onto a head pin and form a loop to make a beaded drop. Attach the beaded drop to the other end of the extender chain.
