INSTRUCTIONS:

1. Cut a 12" length of stretch cord. Choose five different colors of e-beads to use in your bracelets, not including the bronze colored e-beads.
2. Choose the color you wish to start with and string the following onto the stretch cord: five e-beads of that color, one bronze e-bead, another five e-beads of that color, and the jump ring of one leaf charm.
3. Repeat the previous step with the four remaining colors.
4. Measure the strand around your wrist and add additional beads, if needed.
5. Tie the two ends of the stretch cord together into a secure triple knot. Place a drop of glue onto the knot and allow to dry. Trim the tails of the stretch cord.
6. Repeat steps 1-5 two more times, mixing up the order of the colors as desired. You now have three mixed color bracelets.
7. Cut a 12" length of stretch cord. String on eleven bronze e-beads and the jump ring of one leaf charm. Repeat this step four more times.
8. Measure the strand around your wrist and add additional beads, if needed.
9. Tie the two ends of the stretch cord together into a secure triple knot. Place a drop of glue onto the knot and allow to dry. Trim the tails of the stretch cord.
10. Repeat the previous step to make a total of two bronze bracelets.
11. Wear the bracelets individually, or together, as desired.
