Round Nose Pliers  
Wire Cutters

## Techniques to Know

Form a Loop  
Jump Rings  
Cutting Chain

## INSTRUCTIONS:

1. Slide one 4mm bicone onto a head pin, trim head pin, and form a loop to make a bead drop. Repeat this step to make a total of six 4mm bicone bead drops.
2. Attach a bead drop to the loop on an eye pin. Slide the following onto the eyepin: one 6mm bicone, one bead drop, and one 6mm bicone. Trim the eye pin and form a loop to make a beaded link. Repeat this step to make a total of two beaded links.
3. Slide the following onto a head pin: one 4mm bicone, one 6mm bicone, the loop on the other side of both 4mm beaded links from the previous step, and one more 6mm bicone. Trim the head pin and form a loop to make a beaded drop. (Make sure you form the loop so it snugs the beads and two beaded links (**bat wings**) onto the head pin so the bat wings hang out perpendicular to the head pin...one to the left and one to the right.)
4. Attach two 4mm bead drops to the loop of the beaded drop from the previous step.
5. Cut a 1 ¼" length of extender chain. Use a 4mm jump ring to attach one end of the chain to the top of the loop at the top of the beaded drop from the previous step.
6. Attach the other end of the chain to the bottom loop of an ear wire.
7. Repeat steps 1-6 for the matching earring.
