

Supplies Needed

#40000594 Sticky Back Foam Sheets in Basic Assorted Colors, 12 pc. (1 pk)

#40000537 Adhesive Back Felt 6"x9", 18 pc. (1 pk)

#40000793 Multicolor 10mm Pompoms, 100 pc. (1 pk)

#40000788 Multicolor ¾" Pompoms, 45 pc. (1 pk)

Tools & Additional Supplies Needed

Scissors

Pencil

Child Safe Craft Glue

Tacky Glue

Techniques to Know

Basic Cutting & Gluing

Instructions:

1. Cut across the 9" width of a green foam sheet to make the curved "grass" for the bottom of your picture. Place the "grass" foam on the bottom side of a blue foam sheet, lining the foam sheets up at the bottom. Trace along the top of the "grass" curve onto the back of the blue foam sheet. Cut out the blue foam sheet to make the "sky" for the top of your picture.
2. Remove the adhesive backings on the "grass" and "sky" and press them onto the white foam sheet so they meet and line up with the top, bottom, and sides of the white foam sheet. Leave the adhesive backing on the white foam sheet. Trim off any adhesive backing paper that shows through from underneath, around the edges.
3. Print and cut out the attached tree top shape (or make your own). Trace the shape onto the back of an orange piece of adhesive back felt and cut it out. Remove the adhesive backing and press the tree top shape onto your picture.
4. Print and cut out the attached tree trunk shape (or make your own). Trace the shape onto the back of a brown piece of adhesive back felt and cut it out. Starting from the bottom, remove the adhesive backing and carefully press the tree trunk shape onto your picture.
5. Print and cut out the attached bird shape (or make your own). Trace the shape onto the back of a black piece of adhesive back felt and cut it out. Remove the adhesive backing and press the bird shape onto the "sky" of your picture.

6. Sort out the orange, red, yellow, and a few green pompoms. Position the pompoms onto your tree and grass, where desired. Pour some tacky glue into a small cup. Dip one side of the pompoms into the glue and lightly press them into place. Allow glue to dry.

SKILL LEVEL: Beginner

APPROXIMATE CRAFTING TIME: Less than 1 Hr.
